Venezuela is one of the historic origins of fine-flavour cacao. We offer fermented and dried cacao beans of Criollo and Trinitario genetics from regions such as Sur del Lago (Zulia), Barlovento (Miranda), Aragua and Paria (Sucre), with the producer's sheet and independent laboratory analysis before shipment.

QUALITY
Independent laboratory before every shipment

Quality & documentation

- Sampling and analysis at an independent laboratory before every shipment: cut test, moisture, bean count and defects.
- Certificate of origin, commercial invoice, packing list and bill of lading (B/L).
- Phytosanitary documentation as required by the destination country.
- Non-circumvention and non-disclosure agreement (NCNDA) signed before the parties are introduced.

Indicative specifications, subject to lot and laboratory certificate. Final values for each operation are confirmed by the independent laboratory analysis and the contract signed by the parties. This document is not a firm offer.
