QUALITY
Independent laboratory before every shipment

Quality & documentation

- Sampling and analysis at an independent laboratory before every shipment: moisture, screen, defects and cup.
- Certificate of origin, commercial invoice, packing list and bill of lading (B/L).
- Phytosanitary documentation as required by the destination country.
- Non-circumvention and non-disclosure agreement (NCNDA) signed before the parties are introduced.

Indicative specifications, subject to lot and laboratory certificate. Final values for each operation are confirmed by the independent laboratory analysis and the contract signed by the parties. This document is not a firm offer.
